PRODUCT OVERVIEW

Sanitizer wipes dispenser station allows users to pull wipes from top and dispose of waste into size limiting top openings. Unit is freestanding for convenient placement where needed and allows for easy mobility. Constructed of type 304 satin finish stainless steel, with 18 gauge top and 22 gauge bin. Holds one standard commercially available 9" diameter [Ø229] x 9" [229] tall sanitizer wipes container (by others), inside of the locked retainer cage under the lid. Receptacle with top on holds 17 gallons (64L) of waste material and bottom is equipped with four (4) non-skid rubber feet.

KEY FEATURES & SPECIFICATIONS

- Sanitizing station features a removable top with size-limited waste openings and non-skid rubber feet
- Concealed wipes retainer cage holds one standard container, up to 9" [229] high X 9" diameter [Ø229]
- Type 304 stainless steel - Satin Finish
- 18 gauge unified top / 22 gauge receptacle
- Free Standing - Mobile
- Wipes containers are secured with a concealed lock
- 17 gal. (64L) / Height - 31 11/16" (805 mm)

Operation & Maintenance

Top Presenting Sanitizer Wipes Dispenser requires standard commercially available 9" diameter [Ø229] x 9" [229] tall container with coordinated dispenser opening (by others) and use of waste container disposable trash liner bags (by others) in Waste Disposal Station is recommended. Sanitizer wipes are pulled by user. Waste material is deposited into the receptacle through size-limited top openings. The disposal bags are emptied manually on a cycle determined by maintenance needs by removing top and removing bags from top cuff retainer stars. Sanitizer Wipes tub (by others) is manually replaced when empty by removing top and unlocking retainer cage with E-114 key provided. Follow Sanitizer Wipes manufacturer's instructions for opening top and starting wipes before relocking retainer cage and saving key for future use. Unit should be cleaned daily in accordance with facility approved protocols.

Technical Information / Product Properties
