VELARE™ COLLECTION

ASI's Velare Behind the Mirror system is designed to elegantly conceal clutter. The stainless steel cabinet houses a hands-free automatic soap dispenser, and your choice of a paper towel dispenser or high-speed hand dryer, with a HEPA filter.

TYPE 304 STAINLESS STEEL ACCESSORIES

Just about every ASI washroom accessories is manufactured using the finest Type 304 Stainless Steel. Unlike other manufacturers that use Type 403 stainless steel, galvanized steel, or molded plastic.

PIATTO™ COLLECTION

ASI's unique Piatto Collection of Washroom Accessories is designed to stand apart by not standing out. Each washroom accessory is completely recessed, lying perfectly in the plane of the washroom wall. Phenolic doors add an air of sophistication, while concealed hardware adds to the collection's minimalist, clean lines.

UNIBODY™ LOCKER SYSTEM

ASI's locker door frame, sides, and back are all manufactured from one sheet of solid plastic. The result? A Unibody™ locker system with increased structural integrity that's virtually maintenance free. Add to that, the highest quality hinges and latches in the industry.

HAND SANITIZER AND SOAP DISPENSERS

Designed with high traffic environments and hygiene in mind, our automatic dispensers now serve a dual purpose—to cost effectively dispense either soap (liquid or foam) or hand sanitizer (gel or foam). Powered by 6 AA-size batteries makes them untethered so they can be mounted to a wall or just about anywhere.

ANTI- MICROBIAL GERM GUARD™ GRAB BARS

ASI's Germ Guard grab bars are made from stainless steel and are finished with an electrostatically applied antimicrobial powder coating—custom formulated to incorporate slow release silver ions (Ag+), the most powerful and long lasting natural antimicrobial agent known—giving these grab bars an excellent effective lifetime.
