

AMERICAN SPECIALTIES, INC.

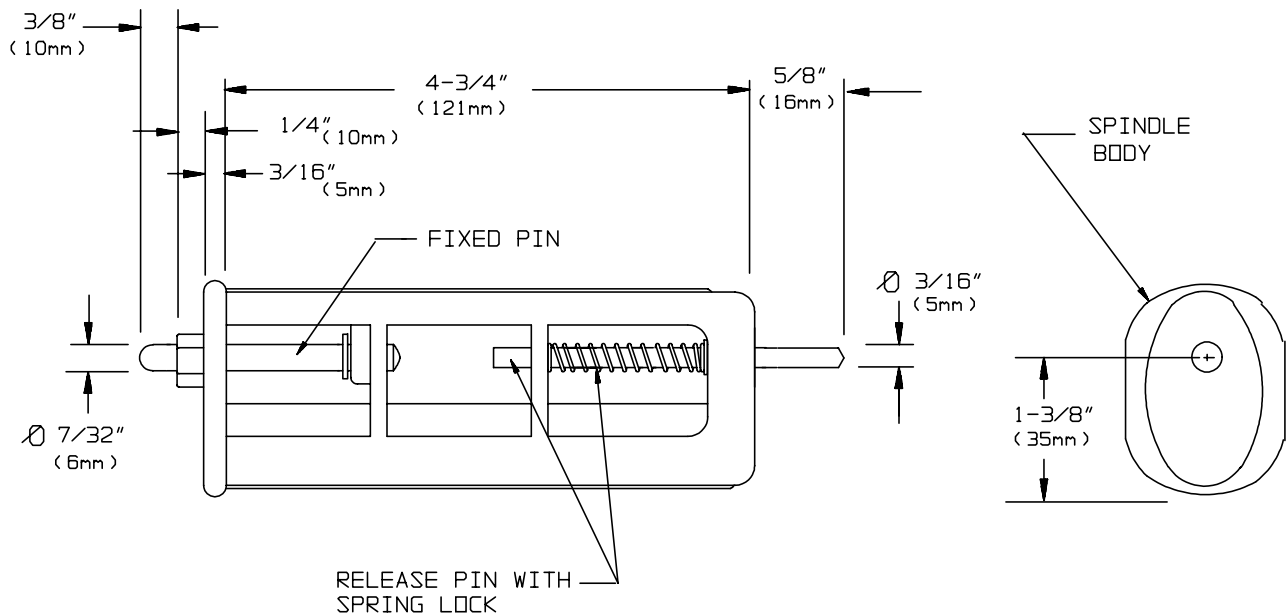

441 Saw Mill River Road, Yonkers, NY 10701 (914) 476-9000

MODEL No: R-002

ISSUED: 5-05

REVISED:

THEFT RESISTANT SPINDLE

SPECIFICATION

The spindle body shall be fabricated of impact resistant, heavy section ABS thermoplastic. Spindle pins shall be chrome plated steel and be theft resistant with a concealed release mechanism. Engagement spring shall be stainless steel. Spindle shall have a molded boss to engage limit stop on toilet paper holders that have limit feature. Spindle shall rotate freely in toilet paper holders that have no limit stop.

Theft Resistant Spindle shall be Model No. R-002 of American Specialties, Inc. 441 Saw Mill River Road, Yonkers, New York 10701-4913

INSTALLATION

Place roll of toilet paper on spindle. Engage fixed end pin into toilet paper holder larger spindle hole. Depress spring loaded end pin and insert into toilet paper holder, allowing engagement spring to drive release pin into smaller hole. Spindle fits ASI toilet paper holder models 0263-series, 0264-series.

OPERATION

Spindle revolves freely. Roll core prevents access to release pin and cannot be removed from spindle until toilet paper is depleted from core.
